## For the Home

VERY jewelry store contains an endless variety of attractive things for the home and we believe that our showing is just a little bit better than you will find elsewhere.

For instance, there's our line of silver plated ware. Seems as though it's about complete.

Then the watch line. All the standard makes in the very latest designed cases.

A showing of cut glass that you cannot equal outside of a big city.

A line of little sterling silver, in staples and novelties for every gift purpose.

Kodaks and Brownie Cameras. We carry all that's best in photography

Drop in the next time you are down town, and let us show you some of the new things.

Receding Now.

reached, and by using wading Board of Education, teachers, the work of our schools and colboots he continued to supply his pupils and public all assisted to leges, is the strengthening of our

Homes in the Cutter factory and lumber yard district were surrounded by water and boats and wading boots were resorted to; but no floors were flooded, as on prior highwater occasions. Numerous furnace fires were drowned out, causing discomfort and inconvenience. In one such home is our old townsman, Frank R. Ecker, who is very ill.

At one time it was feared he would have to be removed, but stoves were put up and the difficulties passed. Mr. Ecker is feeling quite relieved and confortable this morning.

The Lasby-Shuter home, where mere of his refnarks said "that the nothing was done until the adjounded. The water was a foot from their ground floor, but was particularly pleased to have used the surrounded. The water was a foot from their ground floor, but was particularly pleased to have used the worked. In due course the surrounded from the university with plant in the numbers of the pupils in the annals of Lowell progress. The flee club and Orchestra of the high school assisted by the culmination of a great work in the enuls to between these two limits. What height the considered the development of the best in us might be budged, when properly analyzed, the reverse of that which we should be striving for. Let me illustrate by the story of Toolliff Knott, Jimmie Rogers and Miss Eversly.

The Lasby-Shuter home, where of Elevation, formally presented the key to Superintended the hard for the efforts of the pupils and the teachers who trained the music for the occasion and on the reverse of that which we story of Toolliff Knott was a successful progress.

The Glee club and Orchestra of the business to which the culmination of a great work in the floors of the law. He had for the floor of the law. He had fought a worthy fight in the university, the ideal for the university with the culmination of a great wor and lumber yard district were the culmination of a great work just where the line shall be drawn

time, when the Belding dam at Smyrna—three miles above the Lowell plant—went out Tuesday night. Pastor I. T. Weldon, officiating nasium floors of the new school pretained to his respective period should I encourage begging by clergyman, paid the following tribute to the deceased:

Martha A. Packard was born in the township of Vergennes, Kent county, Michigan, January 12th, 1877, and passed to the life beyond from her home in Lowell township March 22nd, 1916.

Her family moved to the village of Lowell when Martha was about three years of age and here and in the immediate vicinity she has had her home and performed her

Her education began in the public schools of this village from which she graduated with the class of 1894. To further preoare herself for her chosen work, hat of teaching, she took a year of training in the State Normal school at Ypsilanti and a summer term in the Ferris Institute at Big Rapids. The Board of Education of her home school engaged her services and for eight years she taught in the room were her own school life had com-

menced. On July 22, 1903, she was united in marriage with Orville Austin, going to the farm home three miles west and south of this village where, for nearly thirteen years, she has performed her full share of the labors of home making. Four children were welcomed to this home circle, the youngest a babe of four days. Beside the husband and children she leaves of immediate relatives. an aged mother residing in this village, a brother in Grand Rapids, one in Texas and two sisters whose homes are in California. spirits that Heaven sometimes be-

She was a Christian from child-hood and very early united with the church, remaining in the fel-lowship till now called to fellowship in the church above. Hers stows upon the world to remind t of what life fashioned like the Perfect life is intended to be and what it will be when the sordidness and selfishness of sin are completely washed out of human hearts. Her face glowed with the light of the purespirit that dwelt within. She seemed to live the life that Paul the Apostle speaks about in the thirteenth chapter of 1st Corinthians, a life of love that endures, is kind, thinks no evil, is modest, rejoicing in every thing that is pure and good and true, giving itself in unstinted measure to the service of others.
Such a life may change its residence but here and but never ceases to be. She lives and loves and serves still; though now in the Father's house Above.

## No Advance on Wall Paper Prices at Looks'

This is one of the hardest seasons ever experienced by the manufacturers of Wall Paper to get the material for the making of this necessary commodity at any price. We were fortunate in buying from a manufacturer that could supply us with the same quality and prices as in the past.

Now we have to offer for your consideration

#### The Latest of the New Styles.

One of the largest stocks in Western Michigan, and best of all, at the same old price, which is the cheapest, quality considered, in Kent county.

# SEAPLANES ARE MISSING IN RAID

British Destroyers Sink Two German Armed Patrol Vessels

**GERMAN TRAWLERS TOOK** FLIGHT FROM BRITISH

Large German And British Squadrons Were Reported In The North Sea

London-Three British aeroplanes which took part in a raid on German airship sheds in Schleswig-Holstein are missing. Two German patrol vessels were sunk and a British destroyer is believed to have been lost. The following official statement was issued Sunday night:

"An attack by British seaplanes was delivered upon German airship sheds in Schleswig-Holstein, eastward of the Island of Sylt. "The seaplanes were conveyed to

their rendezvous close to the German coast by an escorting force of light cruisers and destroyers under Commo dore Tyrwhitt. "Three of the seaplanes which took

part in the attack are missing. "The destroyer Medusa was in collision with the destroyer Laverick. and it is feared that in the stormy weather which prevailed the Medusa

were sunk by our destroyers. Rout German Squadron.

#### FOODS FOR THE CHILDREN Palatable and Nourishing and So Many That Constant Variety Is Made Possible.

Many children do not know the taste of meat up to the seventh year, but if a child is anemic, a tender, juicy chop, cooked slowly, but not too well done, or a piece of roast mutton or beef may be given once a day, at breakfast or noon, but never at night. Never give pork, veal or fried food.

Among vegetables, spinach, carrots, onions and baked potatoes are best. Salads with mayonnaise dressing are excellent for children, but they seldom care for them, except lettuce sandwiches, made of buttered wholewheat bread with young leaves of lettuce between, sprinkled with salt.

Cooked fruit is good for young children. The best way to cook is to put it in the double boiler with half a cupful of water to a quart of fruit. and let cook until soft, then add the sugar at the table as required. Many fruits are sweet enough in their cooked form. A little cornstarch will make the juice appetizing, thick and rich. Apples, pears, peaches and bananas may be baked in the oven, in a casserole, only a little water being added and the casserole covered.

Cereals, properly cooked, mixed with dates or figs, are excellent, accompanied by rich milk or half milk and half cream. An ideal breakfast for a child of s'x consists of either stewed fruit or a small glassful of orange juice, a well-cooked cereal, slices of wholewheat or Boston brown bread, or toast, and a glass of milk.

Among cakes, gingerbread, ginger cookies, raisin cookies and pattycakes can be caten.

Chicken, roasted or broiled, is also suitable for children, together with rice. The rice should be well boiled in salted water, or in half milk and half water, in a double boiler, or it may be made into a creamy rice pudding. the proportions being a tablespoonful of well-washed rice to a quart of milk and two tablespoonfuls of sugar. Bake slowly for two hours.

To throttle Rhinelander in the construction effort the least unbecoming to her. To Seabegun by Helen's own father before grue her look came like a burst of his death, was to advance his own interests as well as those of his client. Rhinelander's decision as to what must be done to meet this opposition

was prompt. He consulted a timetable, called his foreman, asked for a man to carry his she looked slowly up at Seagrue. handbags to the station and began changing his clothes for a trip.

Not far away, and at about the same time, Scagrue was reading his own mail. It contained this note:

"Unsuccessful report concerning pass submitted. Persuaded backers ready passed from the quiet kind to to withdraw support on the first. the remorselessly active kind of those | This will stop operation on Rhinelander's cut-off, as we know he cannot CAPELLE." produce survey.

In Seagrue's hut a party of newspaper men from Oceanside were waiting to be taken on an inspection trip over

"I'm ready for you, boys," said Seagrue, in high spirits, to the journalists. give Helen, she found the tasks of her "We'll look over the work near here day about all that her strength would first," he announced, ripping open a box of cigars.

"Hold it, Mr. Seagrue," cried a camera man, focussing on the manager. from Seagrue, whose activity as head "We want you, first, "ight there where you are, at your des'c. Hold it!"

The picture was taken, a copy promised to Sengrue within an hour and the party started out. Had he left his hut two minutes earlier he might have seen Amos Rhinelander, followed by Seagrue's own Spike with Rhinelander's bags, entering the waiting room door of Signal station.

Helen, looking up from her table, perceived Rhinelander's anxiety reflected in his manner.

"Bad news, Helen," he said, plunging at once into the unpleasant subject. "I am on my way to Oceanside," he added, when she had read Bowers' note. "The directors meet tonight. Someone is trying to undermine us. But whether I succeed in changing their views or not, I'm going to fight if I have to fight all night."

Helen was too upset to speak for a minute. For her, so much depended on the success of her own road in reaching the mountains with a cut-off first. Rhinelander, worried though he was, tried to cheer her up. Spike outside, listening, gathered that Rhinelander was on his way to the city. He hung around the platform till the local passenger pulled in, watched Rhinelander board it, and, mingling with Seagrue's men, walked unobserved over to the latter's camp. He found his boss with the journalists.

"What is it?" demanded Seagrue, scenting news in Spike's appearance. "Rhinelander has just gone to

Seagrue smiled. "Did be get a letter this morning?" "He did."

Their confab was broken in on by one of the newspaper men who had a print of the photo he had taken of Seagrue at his desk. Seagrue inspected this with the greatest pleasure. "Fine!" he exclaimed. "Good pic-

A whimsical idea seized him. He wrote a word or two across the back of the print and recalled Spike. "Take this over to Helen Holmes. Give it to her with my compliments." So saying he turned to the photographer.

Spike's reception at the station was always a chilly one. This time Helen took his message and dismissed him before she opened the envelope. When she saw what Seagrue had sent she was angry. Her first impulse was to tear the hateful print in two. Instead, she contemptuously impaled it tion; yet with enough indecision to in- the sea, on and on she ran, until them, too; nothing escaped her at- again. Her attention was attracted to a paper lying on Seagrue's desk.

Etiquette Overdone.

The good people of the church gave the poor children of the parish a bountiful dinner, and the delight of the youngsters was much more manifest than their table manners.

One little fellow was discovered clutching a jam tart in one fist and a lump of pudding in the other. He was reproved for his breach of etiquette, and took the reproach very meekly. But a moment later he turned to the diner next to him and remarked regretfully:

"The troubles about these here table manners is that they was invented by somebody who wasn't never really hungry!"

### No Law Forbids Spies to Sketch Our Defenses

WASHINGTON.—The United States has no law which prohibits spies of foreign countries from making sketches, photographs and plans of the appearance of fortifications and the topography of the land surrounding

them, in time of peace, it was pointed out by the department of justice the other day. In time of war martial law prevails as to the treatment of foreigners or agents of foreign governments engaging in such occupa-Any person in the government

service giving out information regarding the interior of fortifications may be punished by law and any private tures of the interior of fortifications garia. may be apprehended, but so far as the outward aspects of forts are con-

cerned, spies of any country are welcome to all the information they can get under present laws. This state of affairs is regarded by some persons as especially dangerous with relation to aviation fields. A foreign spy could make complete plans of aviation fields of the United States government, showing where

hangars and other buildings are situated without violating any existing law. It has been suggested that congress this winter make some provision for more adequately protecting American military secrets from foreigners, and this idea may be incorporated in national defense legislation.

### Annual Animal Social Register of Washington

THE annual animal social register of the United States government has appeared. Only about fifty names were added to these bipedal and quadrupedal elite. The list forms a group as exclusive as that contained in any blue book of the genus homo, and

not even the state department's diplomatic list is censored by the chief justice of the United States Supreme court, not to mention a vice president, members of the senate, and private

citizens of national note. When that grave scientific body. the Smithsonian regents, with Chief Justice White as their chancellor, assembled in Washington they received the annual report of the National Zoological park. That report contains three pages of itemized animals at the park (called by proletarian humans

the "Zoo"), and each animal therein is mentioned by name, and the state of health of many of them is reported upon. The document contains much chatty comment, not to mention a birth register, of our most elite zoological families. Other mere "zoos" may get

into reports, but they are not printed at the government printing office, and stamped with any such high approval as that of the Smithsonian regents. Social affairs at the Washington zoo during the last year became vastly more cosmopolitan, it appears, though no less exclusive, because of the advent of Mrs. Diamond Rattlesnake, whose jewels dazzled the horseshoe at

the Snake Cage opera. Mr. Great Horned Owl added much zest to the night life, and Miss Whistling Swan and the Misses Mocking Bird were in great demand at the afternoon musicales (given when animals are fed at 3:30). At every first night, especially when Miss Silver Pheasant sang, was old present time. The advantage claimed WANTS NATIONAL BIRD DAY Mr. Bald Eagle, and he caused much gossip among the older set by his attentions to the petite Miss Grass Parrakeet. Likewise there was much whispering behind fins and wings when Mr. Black Snake, a villainous-look-

ing gentleman, arrived in company with Miss Barred Owl, a beauty of the Mr. Gila Monster has become quite the cock of the walk, and struts it off every sunshiny afternoon with Mr. Mersanger. At first the three Misses Spermophile were not invited to the more exclusive red-meat affairs because their family was new to most of the older social crowd in the small animal

Several deaths marred the midwinter season, the report intimates. The Misses Waterfowl, vivacious debutantes of the early autumn, suffered the ravages of aspergillosis. The elderly Messrs. Prong-horn Antelopes, who were seen much together, both died of necrotic stomatitis.

### Washington Man Owns Famous Maximilian Opal

E VER since the late Gen. Marc Antony, triumvir of Rome coveted an opal owned by a senator of that empire, who prized the stone so highly that he left Rome rather than give it to Antony to carry around to Cleopatra. opals have been more or less in the

limelight of dynasties, emperors and nations. Today there walks about the streets of Washington a man who can reach into his left-hand vest pocket, if he will, and show you the dazzling, opalescent gem, famous in Mexican history as the "Maximilian opal." The man is Herbert J. Browne, whose hobbles include sailing boats, the single

tax, and collecting opals. This particular opal came Mr. Browne's way because he got three shiploads of ammunition to General Carranza's agents in time to turn the tide in favor of the constitutionalist

The Maximilian opal, as famous among those versed in historic gems as is the Hope diamond, was owned by Emperor Maximilian, was given to General Miramon, his chief of staff, and was found on the body of the latter after the two were executed at Queretaro, an incident that marked the final chapter in the romantic history of the empire of Mexico.

In the early summer of 1914 New York papers carried a little item to the effect that "some of the ammunition which is being supplied General Carrange is being taken out of Galveston on vessels chartered by someone who has assumed the name of Herbert J. Browne, a well-known Washington newspaper man."

Herbert J. Browne's abilities as a skipper, it would seem, were not even known to his friends in the newspaper business. But it was he who, in his own name, took out papers as captain of the vessels, gave Havana as his destination, and when he reached open water turned their prows toward Mexico. In all the Sunshine and the Wright, his two sailing vessels, carried at abundance of rifles, and about fifteen million rounds of ammunition into

## House Collection of China Is Notable up after the engagement.

O'NE of the most interesting pieces in the White House collection of presidential china is an old plate recently given by Miss Mary Custis Lee, daughter of Robert E. Lee. This plate is one that was used by George Wash-

ington, and aside from being of inestimable value historically, is of greater age than any other piece in the whole collection. It is a dinner plate of the well-known and famous set usually referred to as the Cincinnati china.

Miss Lee came into possession of it through her maternal grandfather, George Washington Parke Custis, whose grandmother, Martha Washington, willed it to him. The presentation of this historic piece was made to Miss Margaret Wilson for the collec-

tion. The White House collection of presidential ware is one of the most interesting historical collections in the country, and an interesting story is attached to the acquisition of every piece of it.

The collection was begun with parts of sets of dinner services found in the White House used by seven presidents. It was placed in two cabinets MEDALS FOR ALL THE BRAVE | mint a large number of medals, dein the lower east corridor of the mansion, which were designed by Mrs.

Eight shelves were filled with china used during the Lincoln, Grant, Hayes, Arthur, Harrison, Cleveland, McKinley and Roosevelt administrations. ginal collection has been augmented by gifts from descendants or friends of the various presidents until it now fills four cabinets and ap-

proaches completion. One shelf is filled with pieces from the state dinner set which Mrs. Roosevelt ordered, and which is still used as the state set. It is of beautiful many acts of bravery has just taken to the Figaro, is that all acts of brave ment that carried only a misdemeanor Wedgwood, decorated with a simple colonial pattern in gold and the obverse a step which is certain to gratify ery not singled out for the special hon-

of the great seal of the United States enameled in colors on each plate. This set contains more than twelve hundred pieces, and from these were ed nor been cited in "The Order of of Honor should by no means be negselected a dinner platter, dinner, breakfast, tea and soup plates, with a tea the Day." He has ordered from the lected. and coffee cup and their saucers, for the collection. Pieces from the sets used by the earlier presidents during their incum-

bency were difficult to assemble. None of the china found in the White House, when the collection was begun, antedated the days of Lincoln. It was, therefore, necessary to appeal to the descendants and friends of these presidents in order to make the collection entirely representative. It was also necessary to place some ware in the cabinets which had not been used in the mansion.

Floating Shield Suggested as Protection Against Torpedoes.

Carried Outboard, it is Figured, a Sub- sia, has been cleared by Right Ordinarily Clever Persons Fall for All marine's Torpedo, Striking It, Would Explode Harmlessly-Advantages Over Chain Net.

Washington.-The battleship of the future may plow her way through the seas towing on either side an immense steel shield which will parallel the vessel from bow to stern and which will form a defensive bulwark from waterline to keel-level.

Such is the plan of a Philadelphia nventor, who has filed with the navy department plans for thus safeguarding American battleships from torpedo attack in case of war. These steel shields would give a battleship much the appearance of a man carryinging a window shutter under each arm. In the case of the battleship. however, the long tubular float which would support the upper edge of the torpedo-shield on the surface would be the only part of the shield visible.

The shield, as proposed, is remarkably simple in construction, and while the navy experts have not passed upon its practicable features it promises to supersede the old chain nets for the shield is that it is towed on edge through the water and cuts down the headway of the towing vessel but little. This cannot be said for the chain nets, which seriously impede the

The idea of a steel shield, carried from twenty to thirty feet out from the side of the vessel, is based on the fact that a submarine usually has a chance to fire but one torpedo at a ship. The shield would receive the blow of the torpedo and cause the projectile to explode far enough away from the vessel to make the explosion practically harmless in so far as the battleship itself is concerned. Of course part of the shield would be hopelessly demolished, but the whole shield, long as a battleship, can be furnished, it is estimated, for \$50,000.

These shields need only be carried when the battleship enters a war zone where submarines are known or are expected to be operating. One of the clever features of the plan is to disguise the floats, supporting the shield in the water by its upper edge, as submarines. The float, under ordinary circumstances, is a long tube of steel. which is but little wider, comparatively speaking, than the width of the

Assuming that these floats are made larger and painted to resemble submarines, an enemy submarine, rising for observations to port or starboard. probably would be deceived by the looks of the "dummy" on either side of the vessel, and, if she attacked at DAKOTA BOY IS FINANCIER all, would attack by torpedo only from a distance, which would greatly Lad Fourteen Years of Age Makes diminish accuracy of aim. Should the torpedo strike the defense screen it would appear that a submarine itself had been struck and the attacking craft would, in all probability, es-

cape before discovering the mistake. Particularly, however, is the shield try. adapted to protection of vessels in harbors, where submarines have oc-

### SEWING-ROOM WISDOM

LITTLE THINGS THAT WILL ELIM-INATE TROUBLE.

All Preparations Should Be Made Before Actual Work on the Garments Is Commenced—Have Machine in Perfect Order.

Do you begin feeling that you will go mad before the garment is completed? Do you carry your sewing from room to room, losing this, that and the other thing, and never knowing where needles and thread are? Do you wait till the sewing day before cleaning the sewing machine? If you do any one or all of these things you are wrong. The fates of the thread and needle must be coddledand all the job begins with a hopeful frame of mind. You have sewed successfully before this; why should you fail now? So first buckle on your armor of

faith in yourself. Then, if you haven't

done so already, the week before the

important business begins try to turn good part of a light, airy room into the sewing establishment. If a whole room can be given up to it, and kept for the purpose, all the better. Have the room cleaned before you begin any part of the important feat, for cleanliness is a great rest to the spirit. Have a little crockery bowl or pretty pitcher somewhere with a bright flower that you can look at when your heart gets tired. Put the sewing machine near a window and arrange it and the chair so that the Simplicity marks this charming frock light will fall over your left shoulder. Clean it the day before the work is to begin, and if it seems very dusty oil it thoroughly with kerosene oil, and after cleaning it well with this put on a fresh but light supply of machine oil. On the sewing day see to it that no particle of grease is left about the needle or foot to soil the dainty material that is to be made up by sewing a scrap over and over until the thread shows no oil.

For all the big cutting out try to have a large table, for this is more convenient than the lap board, which is never long enough for some things. Put this table conveniently near the sewing machine, and have a smaller and lower one beside it, with all the sewing traps-shears, smaller scissors, a paper of needles, one of pins, hooks, eyes, buttons, tapes and whatever linings or facings are to be used. But put the dress material on the companies. They had ten or twelve and have somewhere in the room a bit cuffs, trimmings, etc. Then fasten the shears with a long braid to your belt, put the tape measure in the pocket of your sewing apron and pin a small by Boucher. The bodice, which is a little zest. pincushion to the left side of your high at the back and has its decollet. Any small amount of cranberry jelly. eral needles and pins.

With this get-up, which is, of course, for the actual sewing day, little more than ordinary good sense is essential, In using all flat paper models it is was horrified when informed that the necessary to read the directions on straight row and on the bodice from dressings for fruit, particularly if it is men on trial were promoting all of them and not go contrary to their waist line to bust or neck. the companies in which he was a rules. **USING THE LEFT-OVERS** 

ing-Some Directions. Prepared by Neille Maxwell of the De-partment of Farmers Institutes, Uni-versity of Wisconsin.) Left-overs, like the poor, "are always with us."

MAY BE MADE FOUNDATION FOR

APPETIZING DISHES.

Clever Housewife Will Quickly Learn

How to Prepare Them So That

There is No Hint of Rehash-

There are none who care to know that they are being served with leftovers, no matter how appetizing these may be made. Yet, even in the bestregulated families there are bits of left-over food which, if care and thought is used, may be served again without a suspicion that they are rehashed.

The soup kettle has been aptly termed the kitchen waste basket, receiving many a choice manuscript which might otherwise go for naught. Foods thrown away by extravagant cooks would feed an entire family, and

Now for a few examples: The bones and carcass of a turkey cracked and put into cold water, then brought to the simmering point and cooked for several hours, makes a good flavored broth which may be used in any number of ways-to make soup, as a liquid for meat sauces, and as a flavor for gravy. The bits of meat left on the bones of the carver, if cut in bits, added to thick, well-seasoned gravy (also a left-over) placed in a baking dish and covered with seasoned for dancing and evening wear of mashed potato, brushed with egg to make a nice brown crust, then baked, skirt reaches just above the ankles, is a dish which the entire family will

where it is edged with a strand of like. beads. Broad velvet bands are used A half cupful of stewed tomato, less or more, may be added to the turkey waist itself is extremely decollette. bone broth with celery salt, salt, pep-The hair is frizzied and raised high per, and two tablespoonfuls of boiled above the head like a Kaffir chief's rice, and you have a fine hot soup to

serve on a cold night. A half cupful of canned salmon is BOWS AND BUTTONS ARE HERE left over from a previous meal. Shred the fish with two forks, add a chopped sour pickle or a few olives, some chopped cabbage and a little celery, with a simple boiled dressing, the result is a most appetizing salad which One of the revived ways of trim- may be served on lettuce or shredded ming that has met with much discus- cabbage. Tuna fish is especially good sion is the lavish use of buttons and served this way or with hot riced poprim bows. They are placed to give tatoes. Pere Marquette to Michigan Did you ever stop to think what the Pere Marquette Railroad means to the State of Michigan—to this Community—to YOU?

Has it ever occurred to you what a factor the Pere Marquette is in the development of our State? This year it has brought into Michigan over a thousand

families to settle on our undeveloped lands. Do you realize how the Road connects up the cities and towns of Michigan, so that business between them is made easy and social intercourse possible - how, through its big gateways, Chicago, Toledo, Milwaukee and Buffalo, it puts us

all into touch with every other city and town in the country? That it has 1800 miles of DO YOU track in Michigan? KNOW That it serves 45 Counties

of the State with a population of more than two million people? That the Pere Marquette runs nearly a hundred passenger trains a day?

freight cars to do business every day?

That it carries more than five million passengers per year? That it moves over twelve million tons of freight a year? That it requires more than four hundred locomotives, nearly as many coaches, and more than sixteen thousand

That it employs more than ten thousand people? That its payroll amounts to seven and a third million dollars a year?

That most of our people live in Michigan and most of their wages are spent in the State? That it pays this commonwealth in taxes more than one half a million dollars a year?

That it is the only Railroad that many Michigan communities have, and because it runs "All Over Michigan" it is the most important line into those towns and cities having more than one Railroad?

The Receivers are trying to pull it out of its difficulties and put it on to its feet for the benefit of the people of the whole State. Are you helping? Are you boosting? Are you giving it your patronage? If not, begin now. Every passenger fare counts, and so does every pound of freight. Give us the business to do, and we will give you the service.

Operating Receiver, Pere Marquette Railroad. Talk No. 3

# The Flavor Of Food

decides whether you like it or not.

No matter how nicely the table is decorated, if the food doesn't taste good, the meal is a disappointment.

Good cooks taste of things in the making to be certain the seasoning is right.

We might as well eat chips as tasteless or ill flavored food, as far as enjoyment is concerned.

# Lily White

"The Flour the Best Cooks Use."

is made from the best flavored wheat grown-Michigan wheat.

Biscuits and rolls made with Lily White flour come from the oven beautifully browned and open up wonderfully white and flaky.

And they have a delicious, appetizing flavor.

In fact the taste of everything baked from Lily White flour is favorably affected by its excellent flavor.

Test the taste yourself and if Lily White doesn't make the best tasting, most appetizing things you ever ate your grocer will return your money.

# THE BATTLE-CI CHARLES NEVILLE BUCK AUTHOR of "The CALL OF the CUMBERLANDS" ILLUSTRATIONS 64 C.D. RHODES COFYRIGHT DY CHARLES NEVILLE BUCK

SYNOPSIS.

woman of wealth, on her journey with her guide, Good Anse Talbott, into the heart of the Cumberlands to become a teacher of the mountain children, faints at the door of Fletch McNash's cabin. She overhears a talk between Bad Anse Havey and one of his henchmen that ac-quaints her with the Havey-McBriar feud Talks with him and they become antagwith him and they become antag Cal Douglas of the Havey clan b Talks with him and they become antagonists. Cal Douglas of the Havey clan's on trial in Pertl, for the murder of Noah Wyatt, a McBriar. Juanita and Dawn McNash become friends, Cal Douglas is acquitted. Nash Wyatt attempts to kill him but is himself killed by the Haveys Mill McBriar meets 1944 Anse and disciplants responsibility for Wyatt's attempt to kill Douglas. They declare a truce, under pressure from 2006 Anse Talbott, Juanita thinks she finds that Bad Anse is opposing her efforts to buy land and build a school. Mill McBriar breaks the fruce by having Fletch McNash murdered. Jeh McNash be a Bad Anse to tolling who killed his father, but is not told Juanita and Bad Anse further misunder Stand each other. Bad Anse tells Juanita he does not fight women and Juanita gets her land and cabin. Jeh refrains from killing Young Milt is the murderer. Young Milt and Dawn meet several times, resulting in a demand from Bad Anse that Dawn leave Juanita's cabin. Juanita and Good Anse go to see Bad Anse, who again says that the school will fail because it has been started by Juanita in the wrong way. Juanita begins to understand Bad Anse's dream of regeneration for his peoway. Juanita begins to understand Bad Anse's dream of regeneration for his peo-ple. Young Milt and Bad Anse lay aside ple. Young Milt and Bad Anse lay aside the feud for the time to prevent the burning of the new schoolhouse. Dawn remains with Juanita. Bad Anse finds himself drifting dangerously near Juanita.

#### CHAPTER XVI-Continued.

The girl from Philadelphia had for some days been watching the road which led in tortuous twists from Peril to the gap. She herself hardly realized

how expectantly she had watched it. She was thinking of the man she had sent away and wondering what their meeting would be like. And the girl of the hill sitting near by would look on, her fingers gripping themselves tightly together and an ache in her own heart. Deep in Dawn's nature, which had been coming of late into a sweetly fragrant bloom, crept the rancor of a fierce jealousy for the man never seen, but whose letter could make Juanita forget present things and drift away into a world of other days and other scenes-a world in which Dawn herself had no part,

Juanita was wondering if, after all, she had not misjudged Roger Malcolm. She wanted to think she had, because her heart was hungry for love. She come as a benefactor, ought he not?" had written to him, sternly forbidding his coming, and if he obeyed that mandate he would, of course, prove himself

and had arrived in two hours less than the journey should logically have required. The heaving sides of his tired horse told almost as much of the eagerness that had driven him as did the frank worship of his face.

At the front fence he hitched his mount and walked noiselessly up to the larger house. Two feminine figures sat sewing in the hall as he silently opened the unlatched door and let he knew even with its back turned-a figure which, because of something distinctively subtle and wondrous, could belong to no one else. The other

It was Dawn who saw him first and slipped out through a side door. Then, as Juanita came to her feet with a! little gasp and held out both hands. the man's heart began to hammer wildly, and he knew that the fingers he

"I told you not to come," she re-

LESSON TEXT-Acts 9:1, 31 (See also 'What is your reason?" she demand-Gal. 1:11, 17; 1 Tim. 1:12, 17). GOLDEN TEXT-Faithful is the saying and worthy of all acceptation, that Christ Jesus came into the world to save sinners: of whom I am chief .- I Tim. directly that a warm color suddenly

flooded her cheeks, then he went on with naked honesty and an unconcealed bitterness of heart: "When I made such an impress upon history puts myself in the way of havin' to as the "Jew of Tarsus." Read carelove one, I'll pick a woman that won't fully and repeatedly Acts, chapters have to be ashamed of me-some 9:22, 23 and 26, 1. Saul the Man. (1) Physically. We

know but little of Saul (see Ramsey, astonishment, then she exclaimed: Conybeare and others), but we know "Ashamed of you! I don't think any from his labors that he was a man woman would be ashamed of you, Mr. of tremendous vitality. Distant Da-Havey," but, recognizing that her voice mascus knew of his work (v. 13) and Mr. M A. Page had been overserious, she laughed, and he himself testifies as to his activities once more her eyes danced with gay (22:3-26:11). (2) Religiously he belonged to the strictest of the strict, "Don't be afraid of me. I'll promise the Pharisees (26:5-9-11). His anger at Jesus and the disciples was a con-"I'm obleeged," he said slowly. suming passion; literally, he "breathed "That ain't what I'm skeered of. I'm threatening and slaughter" (v. 1). In afraid ye couldn't hardly stop me from all his violence he was conscientious, but yet he was awfully and terribly He paused, and the badinage left wrong, and what is more, his actions were not alone against the disciples "Mr. Havey," she said with great but against Jesus (v. 5). (3) Politiseriousness, "I'm glad you said that. cally Saul was perfectly legal in keep-It gives us a chance to start honestly. ing the law and in his executions in as all true friendship should start. In the name of the law. Doubtless a some things any woman is wiser than member of the Sanhedrim (26:10), his any man. You won't fall in love with hatred knew no pity; it included all that purpose. That gives her plenty me. You thought you were going to who believed in Jesus. (4) Mentally of time for more congenial pursuits." this man transcends all who have ever "God knows I don't," he fiercely infollowed Jesus. A man of intense con-

age and wisdom, but in some things II. Saul Saved. (1) This man was you are still a boy. You are a very first humbled (v. 4). God put forth lonely boy, too—a boy with a heart hungry for companionship. You have had friends only in books—comrade to ble mid-to-save the elect at Damas-cus, though he let Saul go a long way had friends only in books-comrade in his mad career. When he did act, ship only in dreams. You have lived it was "suddenly" and by means of down there in that old prison of a the glory of Christ's resurrection house with a sword of Damocles hang (v. 7, I. Cor. 15:8). Though it was ing always over your head. Because "about noon," yet this glory outshone we have been in a way congenial, you the brightness of the Syrian sun are mistaking our friendship for dan- (ch. 26:13). Many who speak bold blasphemous words would also be Danger of love! He knew that it cast down did they but really see his had gone past a mere danger, and his glory. (2) Saul is not left thus strickeyes for a moment must have shown en, but it is called from above (v. 1). that he realized its hopelessness, but The question of Jesus (v. 4) was a Juanita shook her head and went on: most startling one and that, with the "Pon't do it. It would be a pity. I'm answer to his honest inquiry, convictrather hungry, too, for a friend; I ed him of what must have been a lurkdon't mean for a friend in my work, ing suspicion in his mind, viz.: that he but a friend in my life. Can't we be was wrong and Jesus was truly the She stood looking into his eyes, and of an bumble man (v. 6) and the clear

victions, a slave to a misdirected con-

science, a titan of gigantic force and

of the change wrought in Saul was: facing his hardest reality. He loved (1) Obedience (v. 8). His companions her with utter hopelessness. Her eyes told him that it must always be just that way, and yet she had appealed to as this is the translation used elsehim-she had said she needed his where. Saul is given three days for meditation (v. 9), and he made good use of the time. (2) Praying (v. 11) Henceforth life for Anse Havey was The result was (3) a vision (v. 12) (not only one, as there are others recorded) which resulted in changed individuals and nations. But his vision was (4) a thorough commission (v. seal on his lips and play the part she 15). (a) to the Romans-"kings,"

sured her. "I reckon ye're right. 1 vision and commission there was giveckon we can go on fightin' and bein' en enabling power, the enduement of friends. Ye see, as I said, I didn't know the Spirit. The agent God chose for much about womenfolks, an' because 1 the bestowing was Ananias, not an official, merely "a certain disciple." The gift of the Spirit for power and service is not necessarily by the "laywords broke impetuously from his ing on of hands." It came to Mr. Moody as he walked the streets of "Do ye 'low to magry that man Mal-New York without earthly companions. But the other conditions were fulfilled, a repentant, prayerful man That's your business. I didn't have no though filled with fear and protest (v and a ready and obedient servant who. license to ask. Besides, I don't want 13, 14) yet takes God at his word and goes at once to his task. As we read verses 17 and 18 we discover Whenever you get lonely over there that this special filling of the Spirit was very evidently given to Saul before he received Christian baptismread the order of events carefully. Ged's gift or the Holy Spirit for testimony and service is not the perquisite of the church, priesthood, nor the result of any order of ceremony followed by men. Jesus' instructions to Ananias were very simple and plain; most of the great events that have changed the courses of history have also been hinged upon like simple actions. Ananias had no instructions about the Holy Spirit, only to restore Saul's sight. Much as he dreadhim, he salutes Saul as "brother" (v. 17) in the name of the "Lord Jesus"such is the only true brotherhood

as Lord, and we do well to follow the Bible example. IV. Saul Serving (1) At Damascus Saul is given refreshment the always these days. The war has also been lays emphasis upon the body) and straightway began to testify to the amazement of the people. From Gal. 1:15, 17 it is plain that he did not A man who is good enough to shed remain all of the time ir the city, nor his blood for his country is good did he at once return to his friends in Jerusalem. To Clean a Wringer. Kerosene oil is excellent for cleaning the rubber rollers of a clothes wringer. After it has been applied the rollers should be rinsed off with warm water.

Invente Multiple Phonograph. Efforts to play several phonographs imultaneously in order to increase the volume of sound have hitherto proved failures, owing to the impossibility of exactly synchronizing them, and the slightest difference in speed results in jarring discord. According to Popular Mechanics a Frenchman has just brought out a phonograph in which several disks can be played at once. They are placed one above the others one on vertical driving axis which, of course, turns them all at the same speed. Each disk has its own needle and repreducer . All the sound goes into a common horn by means

SPRING IN THE GARDEN

By E. VAN BENTHUYSEN. Just as soon as the lilac and other spring-flowering shrubs have done blooming, prune them. Cut back to a strong eye or shoot, preserving the characteristic form of the shrub. Fight green lice with tobacco tea

and the rose slug with lime water. Or try dusting air-slaked lime on the infested rose bushes.

Use a sharp knife or scissors when gathering flowers. Early in the morning is the best time, and the blooms now and then, 'Yes, my dear; you're not quite developed will last longest. Keep the stems of the newly cut flowers deep in water before arranging in

Make a place for the petunia. It is one of the most accommodating of plants. It makes a fine showing rapidly, grows easily and takes root rapidly. If there is a corner on the home An examining physician for one of the prominent Life Insurance Companies, in an interview of the subject, made the astonishing statement that one reason why the soil carefully, scatter petunia specificants for insurance are reso many applicants for insurance are re- seeds upon it, water with a fine hose the petunias.

> If Jack Frost has found some tender seedling, place it out of the sun immediately. Spray with very cold water and shade from the sun's rays.

> Gladioli must be planted every two weeks for succession. The plants are beautiful and when placed among roses or with a background of shrubbery are a brilliant spot in the gar-

Cannas like very rich soil and plenty of water during the growing season. Plant two feet apart, if they are the tall-growing sort, the dwarf kind can be planted closer. As the seed pods form, cut them off. A mulch of strawy manure helps to conserve the water that is given them.

### PROPAGATING BY CUTTING

By W. R. GILBERT. Where thousands of plants are grown

for positions in the open air during the summer, this is an important that they claimed to result from riding operation from March onward. Conthe wheel. The doctors got their siderable forethought and knowledge names into the papers, but the dis- of the work are necessary to obtain the eases never materialized. Now, some plants in suitable condition and in sufenterprising member of the medical ficient numbers, when the time for planting out arrives. Although decried by some, the scar-

from continued use of the clutch and let geranium still has hosts of admirbrake pedals. It will probably join ers. especially since the introduction

Cuttings of the varieties of which the numbers are short can be inserted now. These may be obtained from the old plants lifted from the beds in the autumn, or a few tops may be taken off the strongest of the young plants. "I support our government's foreign | Inserted in light, sandy soil they will soon roct on a shelf in a warm house. Cuttings of iresine, coleus, ageratum, heliotrope, verbena, fuchsia, fibrousrooted begonia, etc., when required in quantity should be inserted in a bed of sand will be sufficient and if this

potting up singly in small pots. time, they can be dibbled in close to- bed. gether.

Lobelias, altermantheras, and mesembryanthemums can also be increased by the thousands in this way. Provided there is good stock of old plants on hand, March is soon enough friend have \$10 and I was confident at to commence propagating.

which a large stock is required, may be brought into the propagating house. Placed on the stage, partly burying the tubers in leaf mold, plenty of shoots will soon push out. When these are about three inches in length they should be taken off with a slight heel and if inserted in a sand bed they will

Another method successfully adapted for rooting dahlias, is to make up a hotbed a yard in height, place a frame on this and plunge the pots of cuttings where there is a nice bot-

A list of the quantities of plants required should be made and the numbers entered as they are rooted. This may have much trouble when the time comes for planting out.

#### **GARDEN NOTES**

The flowers of the plumbago capensis are of an unusual shade of blue. It requires about the same treatment as the fuchsia and as a rule flowers continuously. It is a good plant for a cool conservatory and many succeed well with it in the window garden. As the weather moderates toward bed sash will not be needed and the

or used to protect from frost plants that are set out too early. Look to the trees about the home and carefully destroy all bag cocoons,

pests in the spring. Don't let the weeds get a foot high and then pull them, disturbing the surrounding flowers, even if none are

#### SUCCESS WITH COSMOS

Sow cosmos early if you wish to get pots. Shift it along until it is growing in nine-inch pots. Then sink the pot in a border and from the time the plants are six inches high until pinched out. This will keep the plants low and stocky. Long after severe frosts your cosmos will be giving you your beautiful flowers for the window.

### START THEM EARLY

A great many annuals and perennials can be planted now for early in powdered or confectioner's sugar plants. Pansies, daisies, sweet peas until stiff enough to handle. Use any with tailored bow at the side, someand verbenas; but where there is no to wait until March before planting nice. Break off pieces, roll in small bination with a feather fancy at onc' anything but the pansies or daisies. balls, and press half an English wal- side. Start sweet allysum now in your window garden. Sweet peas are too hard to handle from the window box. Better wait and sow them where they are chopped nuts or candied fruits, rais- fastened flat against the crown, all to remain all season.

### RIBBON BEDS.

Good effects can be worked out in of sand made up in a propagating ribbon beds, by using different varieframe with bottom heat. Three inches ties of verbena in rows. To make an effective design, however, it will be is made firm, well supplied with water necessary to purchase plants of each and a bottom heat of 75 to 80 degrees color from your florist as seedlings maintained, many of the cuttings will are quite sure to bring plants of all be rooted in a week and ready for colors common to the verbena family and therefore spoil the color effect, Remaining in the sand such a short which is the prime motive of such a

His Sixteen Years' Suffering Now Ended

"I can say with the greatest of pleasure that Foley Kidney Pills were the only thing that gave me relief in sixteen years."

Mr. G. W. Henderson of Dingle, Miss., says more than that, too. He suffered with cystitis (inflammation of the bladder). It went on until he reached the point where he had dizzy, weak spells, and sometimes he would aimost faint with pain. Of course, he doctored, went off to the mineral springs and drank waters of different kinds, which altogether cost him a large sum of money. Still no permanent relief. Now comes a friend who recommends Foley Kidney Pills, and after using half a dozen bottles, his pains are all gone, he sleeps soundly all night.

When kidney and bladder trouble comes on you and you suffer the pains and aches it causes, have irregular, painful secretions and a burning sensation take Foley's Kidney Pills at once and you will eche Mr. Henderson's sentiments.

For Sale by M. N. Henry.
