THINK, Mr. Voter of your OWN interests, and of those of I your neighbor. How will they be affected by the coming national election?

THINK, Mrs. Voter, of the welfare of your OWN dear ones and of the happiness of your OWN fireside. How will the outcome of the election touch them? THINK, Miss Voter, of the problems confronting YOU in the immediate future. How are your opportunities involved in the presidential election?

Never in the history of this nation was CLEAR THINKING more important. TN A great crisis, it is but natural that individual misfortune should, to considerable extent, cloud

the mental vision of the average citizen. The troubled affairs of our vast agricultural communities and our industrial life have affected the clear-seeing and plain-thinking of great numbers of our people.

As a nation, we are PREOCCUPIED! And this upon the eve of an election, the outcome of which probably will have more far-reaching effect upon the future of the United States than any election in our history.

All have been affected by the economic disturbance which has swept over the world during the last few years. All will as surely be affected by the action they are to take November 8 through their votes in the national election.

Calmly but resolutely, Herbert Hoover has combated, almost single handed, the devastating effects upon this country of the economic and political conflagration which has left so much ruin in its wake throughout the rest of the world.

He has stood steadfast, in the face of demagogic abuse on the part of rival political partisans. He has fearlesssly protected the nation from exploitation at the hands of selfishly inspired politicians or ill-advised groups of citizens. He initiated meas-ures to check the progress of the economic disturbance. His statesmanship saved America from destruction by saving Europe from complete collapse. Think, Voter---Think! Can We Afford to Waste A Year?

Chicago Daily News says:

"The news of the outcome in Maine immediately resulted in a loss through lowered commodity prices, of \$100,000,000 to the farmers of the United States. A similar reaction on the stock exchange cost the security owners of the country \$500,000,000. That is only symptomatic of what would happen if on Nov. 8 the country determined to change political leaders at a time when the economic depression had spent itself and unmistakable signs of recovery were on the horizon."

Senator Arthur H. Vandenberg says:

"It is often said by impatient citizens that 'any change must be for the better.' I be of you, in the name of your own welfare, not to be misled by any such treacherous philosophy. Despite all our grief, we are better off, relatively speaking, than any other people on the globe. This is a world-wide depression. It was preceded by the inevitable collapse of an orgy of American Speculation which focused in WallStreet. WALL STREET BY THE WAY, WAS IN THE IMMEDIATE JURISDICTION OF THE GOVERNOR OF **NEW YORK WHO NEVER DISCOVERED 17** NEEDED REGULATION UNTIL HE BECAME A CANDIDATE FOR THE PRESIDENTIAL POST.
