It seems a strange aspect of the life of royal personages, that none of the English royal family can attend the wedding of the man who was once their head, apparently because of objections from the real powers in the government. Kings and their families have less power to do what they want to.

Village President John A. Arehart has received word from the headquarters of the WPA in Grand Rapids that the project for a new municipal garage here has been approved. If there is no hitch in the proceedings it is expected that work will begin within a very few days. The new structure will cost approximately \$10,000, only about \$2400 of which is to be raised locally and a plan has been worked out whereby this sum will be made up to the village without cost to taxpayers. About \$7,600 of the total cost comes from the Federal Government.

The new structure will stand on Lafayette street opposite the Showboat landing. It will have a frontage of approximately 80 feet, onestory high and will be about 60 feet in depth. The building will be made of reinforced concrete and the roof will be constructed so as to carry bleacher seats for Showboat entertainment, the seats to have aisles and other protective measures for safeguarding the public. The Frank Gould building now standing on a portion of the site to be occupied by the new building will be razed. The work on the new structure will start from the rear so as not to interfere with this year's Showboat. When completed, the new building will house trucks and other equipment belonging to the village and will in addition fill a long-felt want by providing greater and more adequate seating capacity for the Showboat as mentioned above. The front line of the structure will be 10 feet further east than the present front of the Gould building, allowing for a continuation of the sidewalk on the east side of Lafayetie-st, and at the same time adding to the ground seating capacity. The Ledger is informed that the job will provide work for about 35 men.

Rachel Remarks

as the civic tulip beds are beautiful Several others in Alto have beautiful tulips also.

We wish everyone would try and plant a bed of tulips this fall, even if you can't start with over 2 or 3°doz. The bird bath bought by the Garden Club and placed on John Linton's property east of the Grange Hall is a big improvement. With that mound kept nicely mowed and with flowers and shrubs at the back and around the bird bath, we will have changed another unsightly place to a beauty spot.

Palmer, first President of Welles-ley College gave these three rules for happiness. I find that they work so long as we work them.

Commit something to memory every day, something good. It needn't be much. Three or four words will do—just a pretty bit of a poem or a Bible verse.

Look for something pretty every day and don't skip a day, or it won't work.

Do something for somebody every day.

Palmer, first President of Welles-ley College gave these three rules for happiness. I find that they work so long as we work them.

Commit something to memory people who are good-natured to people who are good-natured.

Nothing is quite so worthless as an address by a man who thinks he is really a big shot.
