They know what usually becomes of a family that keeps borrowing money for seven years. They ask if Uncle Sam is immune to similar troubles.

There is a tendency among many people to feel that they are all right, or that their government is on a sound basis, so long as they or it can borrow money. The world sees many financial wrecks resulting from that idea. If the people want the government run on a pay-as-you-go basis, they have got to stop shouting for increased appropriations.
