Common Council WHEN autumn fades away into winter, Nature celebrates the glory. It is not a display seen everywhere, but over the greater part of the country, trees, vines, and shrubs burst forth into a glorious symphony of selections. **Electric Lights** ious symphony of color. It is as if Nature wanted to give a grand picture of her powers, and to offer thanks for wonderful products grown for the nourishment and hannings of man.

Bulbs Replaced Free of Charge

Maples and oaks and many other trees burst forth in a flame of glory. If such a display of color was only to be seen in Europe or Asia, countless travelers would cross wide oceans to see it, and the memory of this lavish beauty would linger for a life time. If the glory is merely in some bush or tree on your home street, human nature becomes dull to that wonder, and

Are You Poor and Wicked or Prosperous and Clever?

Iniquity—intentional—is surely reprehensible

And, by a proletarian, is truly indefensible.

Grave sins, among the prosperous, the often most amusable and really ly quite excusable!

It looks like five years from now, they'll say of this dazzling 1939 Buick, and they're not talking of appearance only.

They're talking of "catwalk-cooling" that floods air under forced draft to ease the temperature of your engine. They're talking of BuiCoil springing and the soft shock-smothering spirals that give you the true "full float" ride. They're talking of that Dynafiash great eight engine, instant with life and wring-ing good from every drop of fuel. They're talking a thousand and one de-tails of Buick that you'll never know nor need to know but that to their schooled eyes spell a better built automobile.
