FORTY-NINTH YEAR

No. 10

UNCLE SAM REACHES OUT

THE UNITED STATES government has extended its long arm, and is taking control over the far north territory of Iceland. Some will say he is getting over too far on the European side of the water, but Adolf Hitler could make a lot of trouble if suddenly thousands of his parachute troops landed on that island.

If United States warships protect ships carrying munitions as far as Iceland on the dangerous voyage to Britain, some of those warships may be attacked by German submarines. No one can quite tell what that shooting would lead to.

The strongest argument, in the eyes of the American people, for such an occupation is that the people of Iceland through their democratic government asked for it. Uncle Sam has a way of responding when people cry out for help in a world of cruelty and hate.

In helping Iceland we are also safeguarding ourselves. In our opinion President Roosevelt made a wise and timely move when he sent American troops to Iceland.

THE BIGGEST TAX BILL

THE NEXT WEEKS will see animated debate in congress over the new federal tax bill, under which it is proposed to raise over three and a half billions of new money. The people should face the fact that when they spend and borrow great sums of money, they have to pay very heavy taxes to cover these expenses.

Some part of this new money will have to go to pay interest on the great sums the country has borrowed in the past 10 years to meet depression conditions. Borrowing money looks too easy, up to the time the bill for interest and repayment of principal comes in.

Even when all these new taxes are paid, our country will be far more comfortably fixed than any nation in Europe. If our people merely groan as they face these taxes, they might faint away and not recover consciousness for some time if they were presented any such tax bill as the poor folks of Europe are required to ante up.

THE PLEDGE OF LOYALTY

ALL AMERICANS were asked on July Fourth to promise allegiance to the United States government, in a pledge recited by Chief Justice H. J. Stone, as follows: "I pledge allegiance to the flag of the United States of America and to the republic for which it stands, one nation indivisible, with liberty and justice for all."

These are noble words, and the people of Michigan heartily assent to them. The question arises as to just what loyalty is, and how far it is legitimate to criticize the government in times of danger.

Our pledge of loyalty should not interfere with freedom of speech and of the press. The people of many European nations are in trouble mainly because there was no right of free speech.

If those people had had the right to discuss freely the actions of their government, there would probably have been no war in Europe. The American people should never do anything to limit this fundamental right.

Our people live under a government which tries to act as a kind father to its 130,000,000 people. Whatever mistakes of policy are made, all units of government show a sincere desire to promote public welfare to open the doors of opportunity to all, and to give aid to those in misfortune. No government ever did such generous things before.

In facing a war danger the nation needs to produce as great unity as possible, consistent with freedom of speech. The question of how far anyone can legitimately go in opposing government policies, has to be left to the conscience and patriotism of the people. Our hearts should throb in love for the starry flag, and every one of the 48 states which it represents, in willingness to sacrifice and toll and struggle for our grand country.

THE HAPPY FAMILY

THE SUGGESTION was made to the National Education association at its recent convention, that more stress be laid on training children for happy family life. Teachers may say that so many duties are laid on their overworked hours already, that they can't take on any new instruction about family life, and that that problem is up to the parents.

Teachers will get an idea from this suggestion, and will see how far they can drop useful seeds of thought into the youthful mind. They can well tell their children that family life is a most essential element in the nation's existence. An unhappy family is like a tree attacked by some pest. Something is eating into the vitality of that tree, and it is up to all the members of the family to do whatever is necessary to prevent some loss of its power.

What constitutes a happy family? It could be defined as a family in which parents and children are working harmoniously, and in which every member of the family lives an unselfish life, and tries to contribute to the welfare of all in that home.

Showboat to Feature Fourteen Star Acts

Lieut. Commander Eddie Peabody To Fly Here Daily from Chicago

N. E. Borgerson, general chairman, declares that the 10th annual Lowell Showboat promises to outdistance its predecessors by a wide margin.

At a recent meeting of the Showboat committee it was voted that since this is the 10th annual year that no effort or expense be spared. It is also the feeling of the committee that since this is Lowell's biggest event that the interests of the town will be best served by forgetting immediate profits.

The West Michigan Tourist and Resort Association lists the Lowell Showboat as one of Michigan's outstanding summer attractions. All the newspapers of this vicinity including Grand Rapids Press and Herald have cooperated toward the success of this great summer pageant.

Lowell is known the length and breadth of the state as "The Friendly Town." Lowell being known as "The Friendly Town" didn't just happen, it came about through the friendly cooperation and interest of every person in the community. Lowell citizens are proud of this slogan and take pride in living up to it.

Eddie Peabody Coming Again According to C. H. Runciman, entertainment chairman, contracts for all of the acts will be completed this week. Eddie Peabody, the nationally known radio star, will again headline the show. Runciman reports that practically every person calling in about the date asks the question, "Will Eddie Peabody be back on the Showboat?" Peabody, who is a Lieutenant Commander in the U. S. Navy, has been granted special leave to come back to Lowell. He will appear in his full military uniform which will be in full keeping with the times.

It will be necessary for Lieut. Com. Peabody to fly between Lowell and Chicago each of the days he appears. He will appear every night except Saturday.

Patriotic Color Scheme The color scheme of the Showboat will be red, white and blue. Chairman William Christiansen of the decorating committee reports that the color scheme of the Showboat will be red, white and blue. Chairman William Christiansen of the decorating committee reports that the color scheme of the Showboat will be red, white and blue.

Pastor Recalled

By a vote of the church membership the Rev. R. C. Warland has been recalled to the pastorate of the Lowell church for another assembly year which will begin September first. He has accepted the recall with gladness and gratitude for the splendid spirit of friendship and cooperation among the ministers and members of the various denominations in this vicinity and to Mr. Jeffries and the Lowell Ledger for their whole-hearted support in every effort of the churches, to reach and help and make friends for God and the church of as many people as possible.

For working the pea and shell racket on school children at a penny a guess Wm. Mantjes, aged 40, was arrested in Capetown, South Africa.

Along Main Street

L. E. Johnson, who is in charge of reserved seat sales for the Showboat reports that the demand for tickets is greater this year than ever before. Better make your reservations now.

Quoting Eddie Kiel: "Gee, but there's lots to learn and heaps of work about this greenhouse business, but I like it!" And we add that that's the spirit that wins out in any undertaking.

The east side DX Service Station, formerly operated by Hollis Andrews, is now being operated by Elmer Ellis, who took over this week. Andrews has been made steward of the Moose Lodge.

At the first of July 1941, there were 674 Company-owned telephones in the Lowell area. The telephone company reports that the number of telephones in the Lowell area is increasing rapidly.

Sealed bids for the construction of a new main-st bridge in Lowell will be received by the Michigan State Highway Department up to 10:00 a. m. Wednesday, July 23, according to the legal notice which appears in detail on page six of this issue of the Ledger.

Frank F. Coons and Frank L. Stephens were re-elected trustees of Lowell School District No. 1 at the annual election held at the high school building Monday. Minutes of the annual meeting and the statistical data of the school district will be found in full on page 6 of this issue.

All citizens of this community will be glad to learn that the Lowell Church of the Nazarene has recalled the Rev. R. C. Warland for another year of service as pastor. All can truthfully say that Rev. Warland has been an earnest intelligent worker for his church and the community as a whole.

Home talent again provided Lowell Rotary Club with another splendid program on Wednesday noon when Robert D. Hahn gave an interesting account of his recent trip taken by himself and family through Kansas, Colorado, Arizona and New Mexico. Mr. Hahn stated that vegetation now covers all of that section of western Kansas which was known as the "dust bowl."

The trees on streets and home grounds are a very valuable possession for any town. If all such trees in some places should suddenly fall victims of some pest and have to be cut down, a severe blow would be dealt to that community. It would be less attractive, and the homes could not be expected to sell for the same money as before.

Quoting Orville Austin of Clarksville: "I see by the Ledger that the Lowell Board of Trade is promoting a park at the Wildfowl sanctuary on Flat River near the King mill. That looks like a good project. It also seems to me that some steps should be taken to see that those graves in Oakwood cemetery that are neglected, be properly cared for as they detract from the well-kept portions of the cemetery."

Every time we go by one of the good stores of Lowell we feel like taking off our hat to the brains and enterprise of the person who runs it. It takes a lot of energy and intelligence to maintain a retail store for a period of years, and make it pay something to the owner or manager. It is so easy to get loaded up with stock that won't sell, or to offend the public, that the management that can avoid these difficulties has performed a very considerable stunt. If you want any kind of article for your home or personal needs, you can get extremely intelligent attention in these stores of Lowell. They are run by bright, capable, hard working people. Tell them what you want, and they will be sure to get it for you, and at prices that will please you.

Jokes, jests, jabs and jibes just by Jeff: Some of the June brides by this time have put down the can opener and picked up the cook book. ... Count as lost the chances for marriage of that Lowell girl about whom they say, "she should make a good wife for some man."

The newspaper joker tells story of a gangster who was getting the front page space were the Al Capones. ... A scientist says it is possible to give us heat over the radio. We've been getting hot air on our radios for years! ... The world isn't lost to us yet, as long as Lowell women worry over their weight and Lowell men worry over their favorite baseball team.

Rastus heard that a friend of his was getting married. To which the friend replied, that he might have to if the cost of living kept going up.

Silas Onlooker's philosophy: Many a Netherlander within our shore-line hopes for a future when he will again be "tulip time in Holland."

England now has more than 3,350,000 old age pensioners.

Splendid Talent For Amateur Night

C. H. Runciman, Showboat amateur night chairman, states that 25 acts have been scheduled to appear on the program next Wednesday night, July 23. These special acts have sent their appearance applications. One group will be remembered from last year as the Fritz family from Lansing. Another group similar to this is expected and a chorus composed of 12 vocal singers from Grand Rapids also have place on the program.

A large crowd is expected in Lowell next Wednesday night to witness the annual event—Showboat amateur night. An admission charge of 10c will be made for adults this year with children admitted free. The money received will be used by the Charles W. Clark Post, American Legion, in its defense program.

The Lowell high school band under the direction of Orval Jessup, will be at the Showboat dock to play from 7:30 until 8:00 o'clock preceding the amateur program.

Under the supervision of Mrs. P. J. Finesis and other friends, reservations were made at Fallsburg Park for 250 people but because of the storm, the group met in the Methodist church dining room.

A lovely potluck dinner was served and two beautifully decorated golden wedding cakes were presented to Mr. and Mrs. White by Mrs. Charles Doyle and Mrs. Finesis. Common Council Acts to Eliminate Salt

The common council is taking action this week to remedy the water situation in the village. Permitted to be secured from the State Board of Health drill test wells in order to secure a new supply of water free from salt. The first test will be made at the foot of Peck's Hill and work is scheduled to start today. If good water is secured in sufficient quantity, a pump will be installed to raise the water to the reservoir.

Tests made by the State Board of Health in the deep well at the pumping station show that only the bottom portion of the 50-foot of water in the well is salty, so that a cement plug, which is being made ready to block off this section will prevent this part of the well being pumped.

A new small pump is being installed at the small well, which tests show is free from salt, so that the well can be pumped continuously 24 hours a day.

By taking the steps mentioned above, Supt. McMahon and the members of the council state that they have reason to feel that the local water supply will soon be restored to normal conditions.

It is claimed that the present condition of our water supply was brought about by oil drilling operation and that this condition would naturally remedy itself within a reasonable time. While our water is not up to its old time standards as to taste, tests taken regularly show that the water is absolutely safe.

The invitation was presented by Miss Doris Christiansen (right) and Miss Elizabeth Ramsey (left), two yeomanettes from the Lowell Showboat. Discussions Wax Warm

The 4-H Club folks, about 700 on the campus, are enjoying themselves. The boys are housed in the north wing of Abbott Hall, one of the new dormitories. Meals are served at the People's Church. Definite programs for both boys and girls are planned. We attended the Candle Lighting Service on Mackinac Field Tuesday night. It was a colorful event. In addition to the candle lighting service the 4-H Service Club, Mrs. Fay Benjamin, of Nelson tp, was elected to membership in this group in recognition of her work as a local leader.

The campus itself changes with new buildings but the beauty of its layout will remain. Doesn't seem to make any difference in the season is, the campus is beautiful. It ranks among the finest in the country, perhaps only exceeded by Cornell in New York.

Health Officer Issues Warning

Water From Springs or Non-Inspected Wells Should Not Be Used Until Water Has Been Tested

Dr. J. D. Brook, M. D., Kent County Health Officer, has requested the Ledger to publish the following warning:

"It has come to my attention that a number of Lowell residents, to avoid the use of the safe municipal water, are obtaining their supply for drinking and domestic use from springs and abandoned wells. This practice is dangerous because it may result in severe sickness caused by drinking a possible contaminated water."

"Water from springs and abandoned or non-inspected wells should not be used until the water has been tested and the well or spring inspected as to its construction and safety."

"Your village health officer, Dr. H. P. Gotfredsen, is prepared to take water samples from any spring or well upon request. All samples of water must be taken by your health officer in official containers. Under state laws all other samples sent in for examination will be rejected."

"But your best and safest bet is to use water from the village municipal supply which is regularly tested by the State Department of Health Laboratory. Don't gamble with your health."

Several barrels of oil are being taken from the well every day. It is reported that the well will be given acid treatment in the hope of securing a steady producer.

Planning Cuts Kitchen Steps. There's a little less mileage being recorded in hundreds of rural kitchens in Michigan, due to some forethought. Anecdotes of Michigan kitchens on parade are provided by Margaret Harris, assistant state home demonstration leader on the Michigan State College staff. In one county a woman moved the vanilla bottle from the second to the seventh step, which she bakes a cake. Another housewife found she reduced her tours across the kitchen by two trips a day. All she did was to move the paper holder to the place where she packed her husband's lunch. In Chippewa county near the famous Loock a tour recently drew 120 persons to see some of the timesavers which have been developed in the time and travel-savers Farm family have done much of their own planning and in many cases their own work even to the extent of plastering. Specialists and county extension service agents of the college have assisted in the time and travel-savers Farm family have done much of their own planning and in many cases their own work even to the extent of plastering.

Gigantic New Cyclotron Being Built by Doctor. Dr. Ernest Orlando Lawrence, the atom smasher of the University of California, is working on what is believed to be the most powerful atom smasher ever conceived by the mind of man. It is scientifically known as the cyclotron. With this gigantic new cyclotron, which will be finished three years hence, Dr. Lawrence hopes to penetrate the secrets of the mysterious cosmic rays by literally creating them in the laboratory. With it he will be able to create new elements and to increase the production of atomic energy. The cyclotron will be a colossal machine, the size of the atom-smasher, in fact, it will create 100,000,000 electron volts.

Work of Generalissimo. Any motorist who thinks he's working harder than ever these days should consider the fact that his car's generator is up against it. Shortened days double or triple the demand for electricity. In pointing out the necessity for an exceptionally high output generator on the modern automobile, the major sources of electrical equipment: Lights and ignition, 18.5 amp; car radio, 17 amp; heater, 5 amp; defroster, 3.5 amp.

Mastering Circumstances. BUSINESS men are constantly beset upon to face conditions of circumstance which must be mastered if they are to be successful. To ignore them is to invite defeat and failure. Occasionally one hears it said that religion and business do not mix, but this indicates a lack of understanding of what constitutes a successful business enterprise and of what true religion consists. The first three verses of the first Psalm are a prayer for guidance in the way of truth. It is the man that walketh not in the counsel of the ungodly, nor standeth in the way of sinners, nor sitteth in the seat of the scornful. But his delight is in the law of the Lord; and in his law doth he meditate day and night. And he shall be like a tree planted by the rivers of water, that bringeth forth his fruit in his season; his leaf shall not wither, neither shall he be cut down, whatsoever he doeth shall prosper.

By the time she is 12, simple good grooming routines should be a natural part of her daily life. Life as going to school, studying at home, eating, sleeping, or taking care of her pet.

Discredited First Argentine President. No "Father of his Country" was Bernardino Rivadavia, first president of the young republic of Argentina. Political jealousies cost him his job. But Rivadavia was a great statesman, one of the greatest Argentines has produced. His achievements in governmental organization and his efforts to speed national progress are recognized in all parts of the world.
