That Makes a Good

The success of your farm sale depends on having a large crowd present . . . a crowd which wants to buy the things you have to sell. And there is just one way to get such a crowd. That is to let the farmers of this territory know you are having a sale and enumerating the things you have to sell.

You can do that job best by using The Lowell Ledger's farm sale service . . . the only means by which you can get the story of your sale before the vast majority of farmers living in this territory.

# The Lowell Ledger **Farm Sale Service**

OFFERS YOU THESE QUISTANDING FEATURES

- 1. A large advertisement in The Ledger, which will be read by the farm people of this territory. Through the Ledger, you take the news of your farm sale directly into the homes of your prospective crowd, where they can examine it carefully,
- 2. An ample supply of attractive bills, printed on brightly colored paper, to cover additional territory.
- 3. A liberal news story on the front page of The Ledger the issue prior to the sale, calling special attention to your advertisement.
- 4. Help in preparing your farm sale advertisement. Simply make up your list and bring it in. We'll do the rest.

When you hold a farm sale, you are offering several theusand dollars worth of merchandise for sale. It will pay you to advertise your sale thoroughly and completely. If you live within 20 miles of Lowell, you can best do that job through The Lowell Ledger, which new has the largest subscription list in its history . . . over 6,000 readers every week.

Styling Advances

serporated in the new 1951 Chrys-ler line.
 Chrysler Division officials state that in no previous year has the division introduced so many major mechanical features, nor done more to increase the esthetic appeal of the Chrysler models.
 Major developments in the new line include an Oriflow shock ab-sorber, standard equipment
 Styling Advances
 In appearance, the 1951 line fully sustains the pace of the me-chanical improvements. All models have been completely re-styled, inside and out, and each model has its distinctive indi-treadily distinguishable from all others in the line. Changes have been made in the direction of fur-ther streamlining and the en models, increasing rear-window area by 201.7 square inches or 30 per cent as compared with 1950 models not having this feature.
 Accent on Beauty
 Length of the car is accentu-ated by the new front fender line, which extends further back in the front door panel. A distinctive turn signal and parking light combination is found on each

line include an Oriflow shock ab-sorber, standard equipment throughout the line; Hydraguide hydraulic-mechanical power steer-ing; and a Fluid-Torque Drive torque converter. The power steering unit and torque converter are standard equipment on the Imperial 8-pas-senger sedan and linousine, and may be had as optional equipment on all other Imperial and New Yorker models.

and each township had a school in-spector who visited schools and certified teachers. A W. Slayton wrote the 1865 report to the Depart-ment of Public Instruction. It is worth reading. "Condition 'good,' improvement fair for ¼ of ¼ of the year in loss of from five to ten volumes by "Statement of the school-town clerk, who reports an annual loss of from five to ten volumes by Wool Production Vital to N

The new wrap-around "Clear-bac" window is now used on all models, increasing rear-window

From School to School
By yrap H. Clark Control of Contro

Vital to Nation Recent price advances and the unsettled international situation have made wool both a valuable farm product and a raw material vitally needed in our defense pro-

gram. Michigan State College sheep specialist Graydon Blank says that farmers who keep sheep will want to make every effort to produce quality wool. This means keeping it free from chaff and other objectional foreign material so the wool will bring the top price and be of most use for military require-

ments. Hay and other roughage should be fed from a rack with sides which will not let chaff get into the wool. Another method is to feed hay and other roughage on the ground, some distance from the barn. This helps to keep chaff from the wool and also helps the flock to get needed exercise. Under no circumstances should hay be car ried over the backs of the sheep Blank cautions. Sheep should be housed only in well ventilated sheds. When housed too close or under poorly ventilated conditions, the tips of the fleeces are stelled and the solutions.

are stained and the sale value re-Plans for a hay rack which will help to keep chaff out of wool, along with other sheep manage-ment suggestions, are contained in the recently revised extension bulle-tin 242, "Selection and Care of the

Farm Sheep Flock." A copy of this bulletin may b obtained at the county agriculture agent's office or by writing to the Bulletin Office, Michigan State College, East Lansing, Michigan.

QUOTATIONS "Let us get rid, once and for all of the idea that Russia wants less than the whole world."-Thomas E. "There is no course which

America can take today which i without risk."-Henry Cabo Lodge, Jr. "The man with no anxiety on his mind these days is dead from the neck up."-Carl Sandburg.

A nylon plastic bearing used in strenuous service has shown a life of more than 40 times that of a conventional bearing, while require ing much less lubrication. Convenonal bearings used in the pinion assembly of a helicopter had to be replaced after only 25 flight hours. Since the plastic bearing has been adopted, no trouble has been encountered in more than 1,000 hours

### Kent Ag. Topics Notas from Kent County Extension Notas from Kent County Extension Ing the show for the boys and cirls Home Economics

Home Economics Gr concern to women's extension groups in the county is the leader training lesson of the month which will be on simple household repairs. The lesson for the Grand Rapida area will be held at the Harrison Park school on February 13 and it will be taught by Miss Olivia Mey-ers, home management specialist, from Michigan State College. Succeeding lessons, which I teach, will be given on February 14 at the Low-" Methodist Church, and on February 15 at the Rockford Com-munity Caom. All lessons are sch-eduled to start at 10:00 a. m. De of the things included in the lesson is a simple way of sharpen-ing shears at home.

ing shears at home. Whenever I teach tailoring or dressmaking classes I am confront-ed with dozens or dull pairs of No doubt you have read in the shears so I know that women are papers that Edwin Parmeter of finding difficulty in getting them Rockford won second place in the This lesson should fill Michigan Certified Potato Growthe bill for them. Another repair ers' contest with a yield of 743 job that gets put off because the bushel. We certainly are proud to nen folks are too busy is that of have one of Kent's growers receive

the leaky tap. It can be pretty maddening to the housewife who has to licten to it all day and rather hard on the fuel bill if it is a hot water tap. Other simple plumbing repairs will be included in the lesson too-at least as many as time will per-mit. Mave one of Kent's growers receive this honor. A reminder to be sure and attend the woodlot demonstration meeting on the Elsie Giles farm in Cannon Are you in the market for some good bred gilts.
