

Lowell Man Breaks Conference Record

East Grand Rapids last year's State Champs, lost their Grand Valley crown to Godwin by a 50 to 48 margin. The Lowell Red Arrows, placed third with 81 points followed by Wyoming Park with 30, Lee Hi 29, Rickford 11 and Grandville with 10 points.

A Lowell man had the honor of breaking the only conference record when Bob Canfield galloped the 880-yard run in 2:02.7 to erase the record of 2:05.7 set by Stoutjesdyke of East in 1940.

Ron Holst of the Arrows came within one-tenth of a second of cracking the low hurdles record in winning this event.

Point winners for Lowell were Holst in the High Hurdles, Kutschinski in the mile, Dalstra in the 440-yard dash, Holst in the Low Hurdles, Porritt in the 220-yard dash, Canfield, and Hoag in the 880, VanderMass in the High Jump, Carlson, in the pole vault. The Arrows scored points in both the medley and 880 relays.

Both Coach Steve Niblett and his boys are to be congratulated for a fine showing in this power-packed conference affair. Many of these leads will score points in the coming Regional meet and some will go to the State Championship meet which will be held at Lansing.

A good number of this year's point-winners, including Canfield, are under-classes and have another year of eligibility, so Godwin, and East will do well to keep an eye on the Arrows for the next few seasons as track in Lowell is definitely on the upgrade.

Safety Campaign By Lowell Police Throughout May

Motorists driving unsafe automobiles in Lowell this month face arrest and fines local police officers said yesterday.

The officers announced stepped-up enforcement of the city's vehicle maintenance laws in support of the May traffic safety program of the Michigan State Safety Commission and the National Safety Council. Emphasis this month is directed toward promoting vehicle care as a means of reducing traffic accidents.

All officers have been alerted to watch for obviously unsafe automobiles, especially those with out-of-focus lights or bad brakes.

Drivers of defective automobiles who become involved in accidents may be charged with violating the Traffic Law, officers said.

It was pointed out that unsafe automobiles were a factor in 12%—or about 3,300—of fatal traffic accidents in 1949. In some states, it is reported, mechanically defective cars were factors in 19 per cent of accidents involving deaths.

One Car Out of Three Has Defects

The law enforcement officers further emphasize the seriousness of the problem by reporting that "approximately one out of three cars on the nation's streets or highways has some obvious and hazardous defect."

Every motorist in Lowell is urged to have his brakes, lights, steering mechanism and tires checked immediately. These are the mechanical features which are most dangerous if they are in poor condition. Other safety equipment which should be inspected and replaced, if necessary, are rear and stop lights, windshield wipers, muffler, window glass, horn and rear-view mirror.

"May," which marks the beginning of vacations for many families, and the observance of Memorial Day, is the logical time for getting one's car in good mechanical condition," the law enforcement officials urge. "Automobile owners who take precautions now are insuring a safe summer for themselves, their loved ones, and their neighbors."
